This paper is a compilation of information about the shops and trades that have occupied Alcester's ancient High Street from the 17th century to the present day.

This document was published originally as two occasional papers, namely: Occasional paper No. 15 : The High Street, West Side and Occasional Paper No. 18 : The High Street, East Side. These were prepared by Edward Saville, who founded the Society.

These have been combined in a one volume entitled simply "Alcester's High Street". The text has been edited to include up to date information about the current trades to be found in this fascinating street. The editor of the new edition is Cyril Johnson.

"Alcester's High Street" has been printed on heavyweight gloss paper with full colour covers and costs £3.00.
